USC Boilerplate

Use of AI. Use AI tools only when explicitly permitted; always cite sources.

Technology Requirements. You are responsible for ensuring that you have the necessary computer equipment and reliable internet access to complete this course. This course requires Microsoft Excel and access to Brightspace. Marshall has site licenses for a variety of software that students can access free of charge. A list of available software is located here. You are invited to explore what lab or loaner options exist. Contact the Marshall HelpDesk (213-740-3000 or HelpDesk@marshall.usc.edu) if you need assistance.

Open Expression and Respect for All. An important goal of the educational experience at USC Marshall is to be exposed to and discuss diverse, thought-provoking, and sometimes controversial ideas that challenge one's beliefs. In this course we will support the values articulated in the USC Marshall Open Expression Statement (<https://www.marshall.usc.edu/open-expression-statement>).

Recording. No recording or distribution without instructor permission.

Academic Integrity

The University of Southern California is foremost a learning community committed to fostering successful scholars and researchers dedicated to the pursuit of knowledge and the transmission of ideas. Academic misconduct is contrary to this fundamental mission and includes any act of dishonesty in the submission of academic work (either in draft or final form), as well as cheating, plagiarism, fabrication (e.g., falsifying data), knowingly assisting others in acts of academic dishonesty, and any act that gains or is intended to gain an unfair academic advantage. Students are expected to uphold the highest standards of academic integrity in all coursework. This course follows the expectations for academic integrity as stated in the USC Student Handbook. All students are expected to submit assignments that are original work and prepared specifically for the course/section in this academic term. Students may not submit work written by others or "recycle" work prepared for other courses without obtaining written permission from the instructor(s). Students suspected of academic misconduct will be reported to the Office of Academic Integrity.

Academic dishonesty has a far-reaching impact and is considered a serious offense against the university. Violations will result in a grade penalty, such as a failing grade on the assignment or in the course, and disciplinary action from the university, such as suspension or expulsion. For more information about academic integrity see the Student Handbook, the Office of Academic Integrity's website, and university policies on Research and Scholarship Misconduct. Please ask your instructor if you are unsure what constitutes unauthorized assistance on an exam or assignment or what information requires citation and/or attribution.

Instructors determine whether and how generative AI tools (such as ChatGPT, Copilot, Claude, Gemini, and similar applications) and other external resources (such as English-language translation tools) may be used in this course. Expectations may vary from assignment to assignment. This includes AI tools that record, transcribe, or summarize class sessions, which may require express instructor permission. Review the AI use guidance provided carefully, and direct any questions to your instructor before submitting work.

Students seeking general guidance may consult the following resources: USC Student Handbook; Generative AI General Policy; Practical Tips for Using AI in Academic Work; and Office of Academic Integrity.

**Statement on University Academic and Support Systems
Students and Disability Accommodations**

USC welcomes students with disabilities into all of the University's educational programs. The Office of Student Accessibility Services (OSAS) is responsible for the determination of appropriate accommodations for students who encounter disability-related barriers. Once a student has completed the OSAS process (registration, initial appointment, and submitted documentation) and accommodations are determined to be reasonable and appropriate, a Letter of Accommodation (LOA) will be available to generate for each course. The LOA must be given to each course instructor by the student and followed up with a discussion. This should be done as early in the semester as possible as accommodations are not retroactive. More information can be found at osas.usc.edu. You may contact OSAS at (213) 740-0776 or via email at osasfrontdesk@usc.edu.

Student Financial Aid and Satisfactory Academic Progress

To be eligible for certain kinds of financial aid, students are required to maintain Satisfactory Academic Progress (SAP) toward their degree objectives. Visit the Financial Aid Office webpage for undergraduate- and graduate-level SAP eligibility requirements and the appeals process.
